Electro Homoeopathy :

It is natural system of healing, discovered by Dr. Count Mattie of Italy in 1865. It is based on the principal "**Complexa Complexis Curanture**".

According to Dr. Mattie accumulation of toxins is the only cause of disease and plants have power to detox the body. To reduce toxicity in original plant extract he introduces a method called Cohabation. Medicines were selected on the basis of temperament like *tri-dosha* of Ayurved. In short it is Italian method of giving Indian Ayurvedic Herbs in diluted non-toxic form of Homoeopathy of Germany. In other words it is combination of Ayurveda and Homoeopathy. As these micro-herbs bring the cure by de-tox the body, these also give benefit of Naturopathy. e-Homoeo remedies are known as "Spaguric Essences". These are powerful but non-toxic Micro Herbal Medicines and their efficacy was proved by one of the Agriculture University of Himachal Pradesh. As these medicine come from Nature, they are immediately absorbed in the blood giving quick result like electricity.

As these are not covered by Drug & Cosmetic Act, many labs have started manufacturing these medicines. About 30 labs have made these medicines available in all major cities of India. At present all

medicines are prepared from 114 plants. There are nine groups of medicines which are as follows:-

Dr. Mattie gave eight specific groups of medicine with addition to five "electricities", also known as the electric fluids which are mostly used in making a compress for the body points. Mattie classified the medicines in group as follows:

Sr.No	Name of medicine	Action

(2)	Anti-angitico Group	For purification of the blood
(3)	Anti-lymphatic Group	For metabolism disorders

(6)	Anti-venerous Group	For constitutional disorders venereal disease

In addition to tissue medicines there are 36 Electro-homoeopathy injections that were prepared by Theodore Krauss, one of the great followers of Mattie. He further manipulating true Electro-homoeopathy and created Electro-complex homeopathy in Germany.
